1 Introduction

SQA Accreditation is the national accrediting body for Scotland with a statutory remit under Scottish legislation to accredit and quality assure qualifications in Scotland. Although part of the Scottish Qualifications Authority, SQA Accreditation is distinct and autonomous from SQA's awarding function.

SQA Accreditation sets and specifies the requirements for accrediting qualifications to safeguard and support the interests of learners, parents, funding bodies, employers, providers and Scottish Government. We do this to promote and maintain public confidence in accredited qualifications and approved awarding bodies.

This report summarises the qualification data that has been provided to us by approved awarding bodies, referred to as data submissions. This information covers SQA accredited qualifications during the third quarter (Q3) of 2019-20 (1 October–31 December 2019) and shows the number of candidates who were:

- ♦ registered for an SQA accredited qualification
- ♦ certificated for an SQA accredited qualification

The data has been analysed in relation to:

- ♦ qualification type
- ♦ awarding body
- ♦ developer
- ♦ qualification category (i.e. classification)
- ♦ Workplace Core Skills

For upcoming data submissions, the following deadline dates apply and must be adhered to by all awarding bodies to ensure consistency and accuracy of data in future reports:
